Your Choice of Either Rifle

Genuine Stevens ".22" Rifle

These marvelous, well balanced rifles are "take down" models with 22-inch round barrels which are made the Stevens way—rifled so less than 1-10,000 of an inch in accuracy, making them probably the most accurate guns manufactured today. The famous Stevens lock and breech mechanism is used, insuring safety with ease of operation. Ejector is positive and handles all cartridges from C. B. caps to 25 long rifle. This rifle is perfectly balanced and its beautifully tapered blue barrel and walnut stock make it a gun anybody will be proud to own.

Genuine Hamilton ".22" Rifle

This hard shooting, accurately sighted Hamilton Rifle has a beautifully blued barrel, automatic shell ejector, and fine walnut finished stock. It is of the popular "take down" type. By loosening one thumb screw, gun can be taken apart and packed away in a very small space. The barrel "breaks down" at breech to load, and hammer has safety position so gun cannot be fired accidentally. Trigger guard is extended into a pistol grip which makes for more accurate shooting. Uses .22 short and long cartridges.
